DD/R - Organization S DDR 316-62 5 July 1962

DD/R memo to Exec. Director Subj: Organization

25X1

DD/R not able to concur in latest revision of proposed organization directive for DD/R.

The language of the directive does not clearly define the research and development mission of the DD/R nor state clearly the actions to be carried out for transferring funds, personnel, projects, etc. in order to establish the Office of R & D.

The paragraph on transfer of ELINT should be changed to state "All ELINT activities, including funds, manpower authorizations, and materiel of the DD(Support), DD(Plans), and DD(Intelligence) will be transferred to the Deputy Director (Research as soon as possible and no later than 15 August 1962." This paragraph should also contain the appointment of Mr. George Miller as Asst Dir of the Office of ELINT (DD/R).

(On 20 July 1962  wrote to Dr. Scoville: "You have heard entirely too much discussion and have received too many papers on this subject already. My final thought on all this is that nobody but Gen Carter (or Mr. McCone, who thinks he has already done so) can rule on this matter, but it is equally clear that Carter doesn't feel himself capable, or for some other reason doesn't want to cut the mustard. Perhaps it is now time to hand him a paper which embodies our conception of how this ought to be done,...I think we are all agreed that Kirk's /Mr. Kirkpatrick's/ various drafts are sterile."
